

FORMING THE FUTURE

Keeping it running smoothly:
Replacement parts from Schuler.

SCHULER REPLACEMENT PARTS

High availability, fast delivery and expert advice

SCHULER 

Member of the ANDRITZ GROUP

Our stock of replacement parts in the central warehouse.

OUR EXTENSIVE STOCK OF REPLACEMENT PARTS. ENSURING THE HIGH AVAILABILITY OF YOUR SYSTEM.

HIGH AVAILABILITY THANKS TO OUR EXTENSIVE CENTRAL WAREHOUSE OF REPLACEMENT PARTS

When your equipment needs servicing, a high availability and a quick response time are essential factors for efficient operation of your system. To quickly assist you as your business partner, we have further improved our replacement parts offering and significantly expanded our central replacement parts warehouse in Göppingen. You can thereby benefit from the high availability of your system while keeping your in-house inventory costs low.

STOCKS OF ESSENTIAL REPLACEMENT PARTS

The failure of one or more critical parts can have a substantial impact on your system availability. For this reason, we stock core components and selected critical parts in our central spare parts warehouse so that we can respond quickly when your equipment needs servicing.

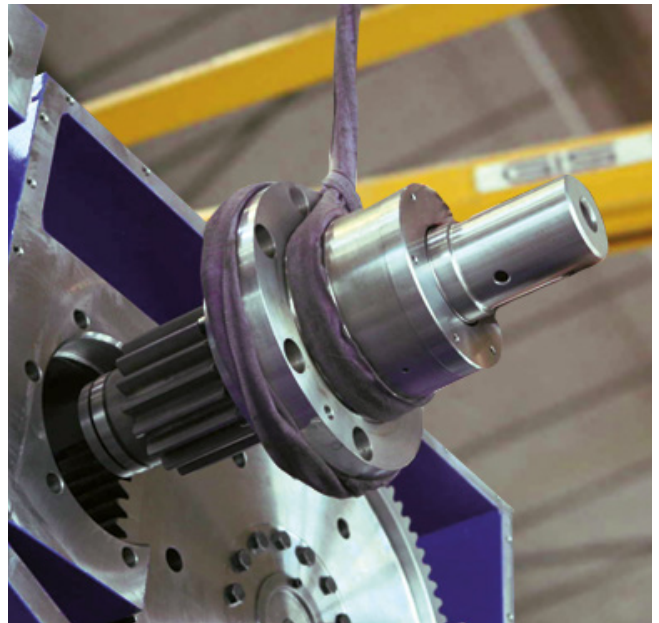

REPLACEMENT PARTS FOR ALL SCHULER SYSTEMS

We can provide you with replacement parts for all Schuler machines and technologies, whether it be mechanical presses, hydraulic presses or automation components. And of course for earlier model year machines and machine types that we no longer manufacture as well. We will find a quick solution even when the part you need is no longer in stock.

REPLACEMENT PARTS FOR SCHULER SERVICE BRANDS

Our replacement parts service also extends to all Schuler service brands worldwide – regardless of the year of manufacture.

SCHULER SERVICE BRANDS

Removal and fitting of replacement parts on request.

PURCHASED PARTS FROM TRUSTED SUPPLIERS

Our network of trusted suppliers, combined with the know-how we have acquired from over 180 years of machine manufacturing enable us to purchase replacement parts in the required quality, of the correct dimensions, and based on the latest technical knowledge. We also stock many purchased parts in our central spare parts warehouse.

REMOVAL AND FITTING OF REPLACEMENT PARTS

Our 250 experienced service technicians worldwide can assist you, if necessary, with removing and fitting the replacement parts.

Maximum system availability thanks to fast replacement parts delivery service.

RELIABLE AND FAST DELIVERY SERVICE. FOR SMOOTH PRODUCTION.

GLOBAL PRESENCE

Schuler has production sites in Europe, China and America, as well as service companies in more than 40 countries. Take advantage of our global network and benefit from our quick response times. Besides our replacement parts and logistics center in Göppingen, we also have replacement parts and logistics centers for the Asian and American markets at the Schuler locations in Dalian (China) and Hastings (USA).

EASY TO REACH

For fast and uncomplicated processing of your replacement parts inquiries, we have a central replacement parts team who will be happy to advise you and answer your questions. Feel free to ask us about the various contact options available to you.

FAST DELIVERY SERVICE

A fast delivery service with replacement parts held in stock ensures downtimes are kept to a minimum and you can keep your production operating smoothly. Our logistics center in Göppingen guarantees a fast and reliable supply of replacement parts. In most cases we will have the necessary replacement parts in stock and can deliver them in short time.

Logistic centers in Göppingen (Germany), Dalian (China) and Hastings (USA).

If you need your part even faster, then we can send it to you by express delivery (additional fees may apply). We also deliver overseas, of course. Feel free to ask us about the delivery details by phone or send an email to serviceparts@schulergroup.com.

Expert advice for your optimal replacement parts strategy.

EXPERT ADVICE. FOR YOUR OPTIMAL REPLACEMENT PARTS STRATEGY.

EXPERT ADVICE

When selecting replacement parts, in particular standard parts and assemblies, you can trust in the advice and know-how of our experienced experts. We will help you to identify the correct components, and advise you when items have been discontinued or further developed technically. This ensures you will always receive the most suitable replacement part.

ADVICE ON AND DEVELOPMENT OF YOUR INDIVIDUALIZED REPLACEMENT PARTS STRATEGY

Our experts will work with you to develop your individualized replacement parts strategy and will take your existing maintenance and inventory strategies into consideration while doing so. The objective of the replacement parts plan is to reduce costs while also ensuring an optimal replacement parts supply.

STANDARD REPLACEMENT PARTS PACKAGES

Our standard replacement parts packages for specific machine types have been put together by our service experts to increase system availability.

YOUR ADVANTAGES

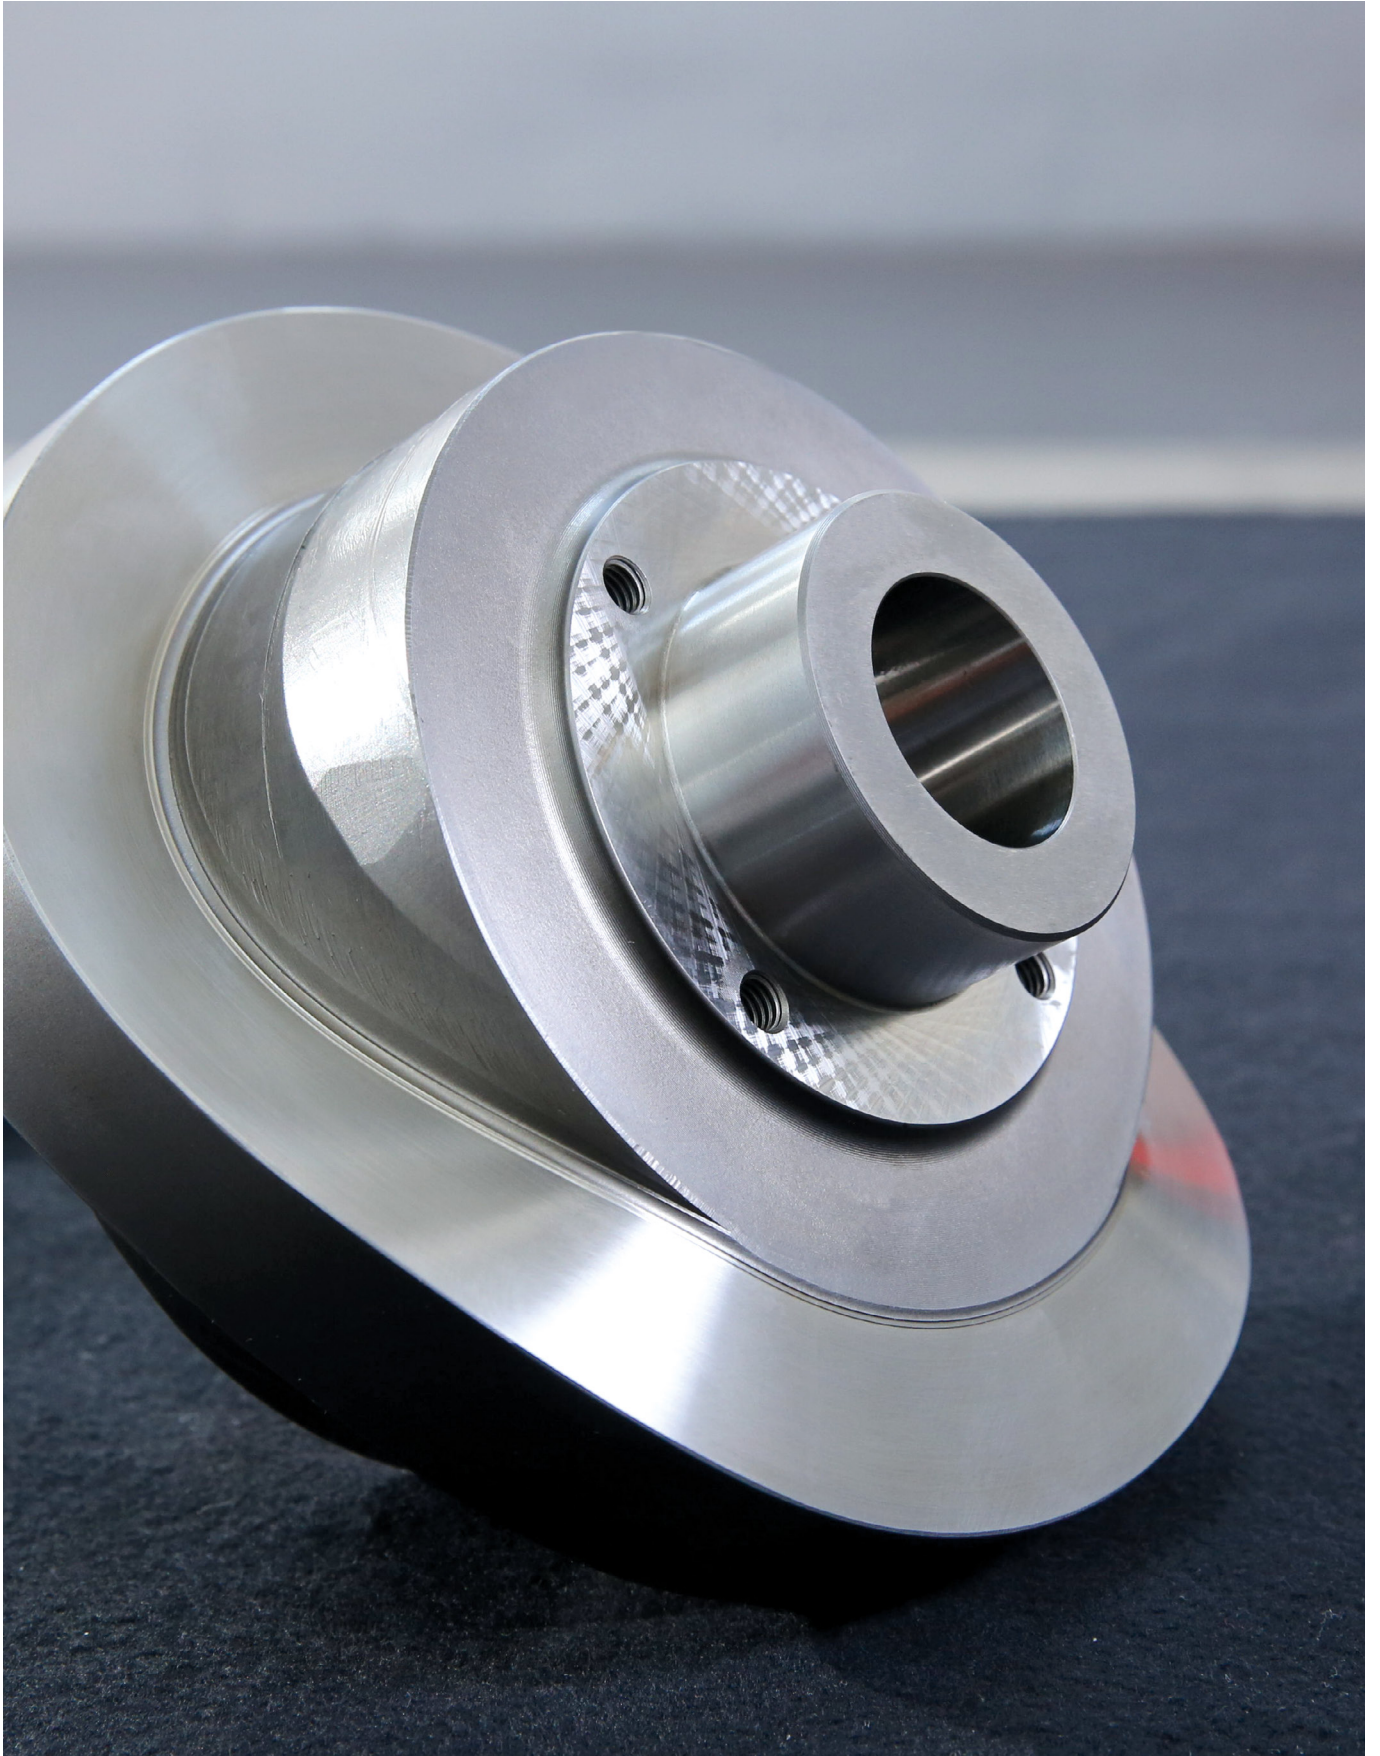

- Expert advice.
- Identification of the correct components.
- Original replacement parts.
- Purchased parts in the required quality and based on the latest technical knowledge.
- Development of your individualized parts strategy.
- Largest stock of original drawings for Schuler systems and service brands worldwide.
- Manufacture of replacement parts without a drawing, if required.
- Know-how of the globally leading manufacturer and use of state-of-the-art technology.

Replacement parts package.

CUSTOMIZED REPLACEMENT PARTS PACKAGES

You can not only purchase standard replacement parts packages, but also have customized replacement parts packages put together to suit your very specific needs. Contact us and we will assemble a customized replacement parts package for you.

Using the highest quality replacement parts ensures safety and maximum service life.

QUALITY AND KNOW-HOW ACROSS THE ENTIRE LINE. NO COMPROMISES WHEN IT COMES TO REPLACEMENT PARTS.

RELIABILITY THROUGH QUALITY

An incorrectly selected, inferior quality or defective replacement part will put your production process and the safety of your employees at risk. It could lead to a breakdown of the entire system and cause significant financial damage as well as impact your ability to deliver to your end customers. Play it safe and choose Schuler every time. We use original replacement parts, as well as quality parts with equivalent specifications, tolerances and dimensions and also the same surface characteristics. Only the highest quality guarantees reliability and a long service life.

MANUFACTURE BASED ON ORIGINAL DRAWINGS

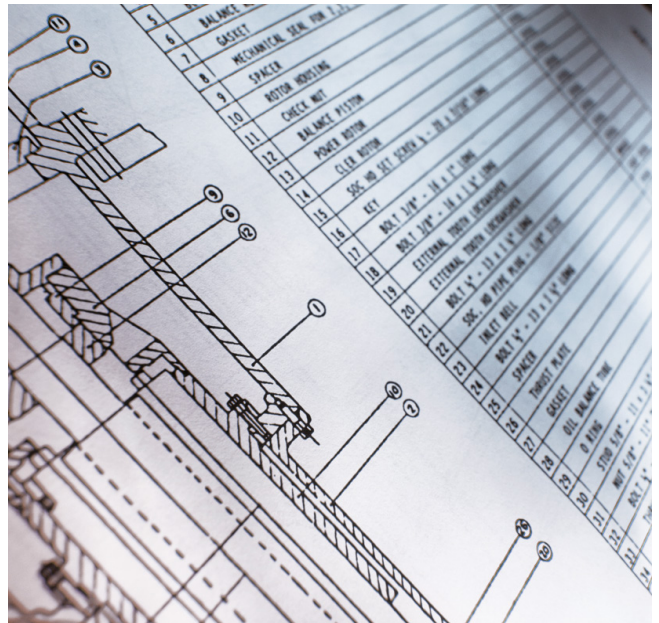

We maintain a very large collection of original drawings for the worldwide installed systems from Schuler and our service brands. This enables us to manufacture all the required replacement parts, even for older machines.

MANUFACTURE EVEN WITHOUT ORIGINAL DRAWINGS

Even if the original drawings are not available, Schuler has the required know-how to ensure the timely and reliable availability of the relevant replacement parts. After our experts have inspected your system, we can design and manufacture the required parts for you.

MANUFACTURER KNOW-HOW

As a manufacturer with over 180 years of experience in production and manufacturing, we can offer you the best solution for all Schuler presses around the world. On request, our experts can design and manufacture custom technical solutions tailored to your needs.

Original drawings for the Schuler systems installed worldwide.

We would be happy to analyze your requirements with you. As your business partner, we can produce the custom replacement parts for you as well as install them and commission your system, and will provide you with the necessary advice and practical assistance throughout the process.

Our long-standing expertise, extensive store of replacement parts, continuous improvement processes, expert advice, as well as highest possible quality all serve one objective: to allow you to concentrate on your core competencies so that you can achieve your commercial goals.

We have several convenient contact options for ordering your replacement parts.
