

CONTROL SYSTEM MODERNIZATION

In record time with ANDRITZ Schuler One.

ANDRITZ

Control concept for maximum system availability

Numerous advantages of the new control ensure maximum efficiency and a high degree of user-friendliness for your system.

CUSTOMER VOICE

"The modernization was completed in just seven days. I was pretty surprised because I have never experienced this before for projects of this magnitude. But this update ran very well thanks to the modularly constructed controller. The ANDRITZ Schuler Service employees were very committed."

KNUT SCHÖNEWALD,
TECHNICAL MANAGER AT HEINRICHS GMBH

THE ANDRITZ SCHULER COMPETENCE

Offering customized cutting-edge technology in all areas of forming – from the networked press to press shop planning. In addition to presses, our products include automation, dies, process know-how and service for the entire metalworking industry. Within the ANDRITZ Metris platform, we combine digital solutions for networking forming technology and develop them continuously to further improve line productivity and availability. For battery production in gigafactories, we provide equipment and service in many process steps specially for cell assembly and formation. Our customers include automotive manufacturers and suppliers, as well as companies in forging, household appliance and electrical industries.
