

Foreign Trade Data / Export Controls

For export control reasons it is essential that you inform us in case you deliver listed goods (including software and technology) to us, i.e. goods which require an export license.

If this is the case, we kindly request you to provide the following information about the respective good(s) on order confirmations, shipping documents and invoices:

customs tariff number,

AL-No. (classification number for goods controlled by the export list / list of military items or goods controlled by the dual-use list),

ECCN number (American Export Control Classification Number for listed US-items or EAR99 for non-listed US items)

and country of origin.

In case of questions please contact Mrs. Silke Bareis (silke.bareis@schulergroup.com).

For better orientation please find examples of product groups that may under certain conditions be listed:

- bellows-sealed valves
- pumps (vacuum pumps, pumps with multiple seal and pumps without seal)
- pressure gauge
- high-voltage DC power supply units
- frequency converter + electrical power units with variable speed
- compressors + parts thereof
- laser
- seals / sealing sets out of PTFE or Viton
- heat exchanger + capacitors
- vibration measuring instruments
- ball bearings
- air filter
- controls / high performance computer / CPU
- CNC machine tools (turning, milling, grinding) with at least 2 or 3 axis for continuous path control
