

FORMING THE FUTURE

SCHULER PRESSES UK LTD

Servicing the pressing industry in the UK

SCHULER UK.

UNIQUE EQUIPMENT.

SCHULER UK WORKSHOP.

Our 1,100-square-metre workshop is equipped with overhead cranes with 25 tonnes of lifting capacity. The 70-meter-long workshop allows us to set up entire press and automation equipment including feed lines and levellers for run off press systems exactly in the same fashion as they will be installed on our customer premises.

CLUTCH AND BRAKE REPAIR CENTRE.

Schuler UK currently handles between 15 and 20 Clearing, Wilkins & Mitchell clutch and brake refurbishments per year. These refurbishments range from straightforward re-seal and part replacement to a full strip down and inspections with all parts and assemblies reworked back to original as a new specification. Once your clutch and brake unit has been repaired, we also offer a full test on our universal test rigs in our facility.

CLUTCH AND BRAKE REPAIR CENTRE.

No one is equipped to service your Torc Pac better than Schuler UK. We have developed a clutch maintenance program to prevent unpredicted downtime of your Torc Pac equipped press.

Our customers can choose from the following Torc Pac options:

- Repair & Return
- Exchange & Rebuild
- Replacement
- Conversions

Test rigs for power press clutch & brake testing are set up in our workshop ready to receive customers' clutch & brake units for insurance testing or testing following repairs or refurbishments.

Modernization of Wilkins & Mitchell press.

PRESS & PRESS LINE REFRUBISHMENT.

Due to the many years of Service and Sales experience within the metal pressing industry, Schuler UK's Field Service and Design Team is able to provide our customers solutions to rebuild and refurbish presses, press components and press automation equipment either in-house in our own facility in Walsall or on site at the customer's facility.

SCHULER UK.

SPARE PARTS, PRESS ANCILLARY AND AUTOMATION EQUIPMENT.

Schuler UK offers the best spare parts service in the press industry. We supply spare parts based on original equipment drawings and manufacture those spare parts here in England whenever possible.

We offer spare parts to the original equipment specifications, providing optimum performance and durability of your equipment.
